# charge

ONE SERIES

⚡ Charge Controller

IEC 61851-1 (mode 3 charging)

Control Pilot and Proximity

Pilot communication

⚡ Power management

Smart power measurement (3 + 1)

6mA DC fault current detection
⚡ Connectivity hub

Bluetooth 5.0 / WiFi

⚡ **Control at your fingerprints**

- Real time power consuption

- Balancing power in real-time

- Power consuption analytics

- Control usage Lock and Unlock

- Define your charging schedule

Connection to 230 Volt (single - phase) or 400 Volt (three phase)

Smart power metering

Integrated residual current detection: DC 6mA

Lenght of cable: 3.5m, 5m, 7.5m

Adjust charging power 3.7kW / 7.2 kW / 11 / 22 kW

Plug and Play solution. Easy to install by a trained electrican

Control from anywhere, anytime. The WCharge iOS and Android app
